

Knowing my level

In order to improve the homogeneity of our groups and the effectiveness of teaching, students are divided into level groups in our courses. **It is therefore important that you choose a course suited to your level because you are responsible for your registration. If your teacher judges that your level is not suited for the course in which you have registered, he may redirect you to another course (if places are still available).**

The level of our courses is the target level: the one you should reach by the end of the course.

For more information about the levels of the CECRL, consult [this page](#).
